PROFILE

I bring a solid foundation in Information Systems Engineering & Data Science, acquired through a E-Business License at the Higher School of Economic and Commercial Sciences of Tunis.

With hands-on experience gained during internships, such as contributing to an Android restaurant management application at INNOVUP and developing features for an online bank credits application at STB, I have honed my skills in project development, particularly in web and Android applications.

Motivated and eager to leverage my education and experience to contribute effectively to dynamic projects.

EDUCATION
